Your Social Studies Suggestions

These questions are in no particular order. I have not edited them, though have made a few comments here and there in brackets :-) 

Hint- think of how you could give SPECIFIC examples in your answers.

Also, pay attention to new or key vocabulary- this could be on a matching question on the first page ;-)

p. 60-90

1. How does human development affect political, social and natural environments?
2. Does the natural environment affect how people view things? How?
3. How does the climate affect where people live?
4. How do natural resources affect people’s lives?
5. How do treaties affect our present-day lives?
6. What are some similarities and differences between Russia and Canada (** Note- I, Ms Myers, would probably make this a little more specific- e.g. “... in regards to physical geography” or “... in regards to natural resources” etc.)
7. How are Western perspectives different from (traditional) First Nations perspectives?
8. How does historical background affect a country’s political environment?
9. How does mining and drilling (i.e. resource extraction) affect the Indigenous people of Canada?
10. How do humans impact the planet?
11. How can the countries work together to make this planet more environmentally friendly?
12. If it was up to you, what would you have the government do about making clean energy?
13. What influences people to move to a different region?
14. How do humans affect the resources?
15. Why do people move to places with resources?
16. How does physical geography influence where people live? How does it relate to population density?
17. What factors influenced where Indigenous people chose to live (historically)?
18. What are renewable and non-renewable resources?
19. What are the most used non-renewable resources today?
20. What are the effects of global warming?
21. What are sources of renewable energy?
22. What are the types of maps and their uses?
23. What effects do people have on the environment?
24. What influences people to move to a different region?
25. What is the difference between a renewable resource and a non-renewable resource? Give examples.
26. How may people influence population density in the future?
27. What is the First Nations view on resources?
28. Give four examples of how Canada and Russia are similar.
29. What is your prediction on the future of treaties?
30. What do you think will happen with the Northwest Passage?
31. How has European life affected First Nations life?
32. How have humans negatively impacted the environment?
33. What are the advantages and disadvantages of maps and globes?
34. How does the environment affect where people live in Russia?
35. Define renewable and non-renewable resources. Give examples of both.
36. How do people affect the natural environment?
37. What is the difference between immigrate and emigrate?
38. Give 2 reasons why people might have to relocate.
39. How does the environment affect people?
40. What are the differences and similarities between Russia and Canada?
41. What would make people move?
42. How does the environment affect where people live?
43. Have environmental issues affected where people live?
44. Will we ever be forced to move?
45. Should we have nuclear plants?
46. Why is Russia’s population denser in the west than in the east?
47. Should we protect the Northwest Passage?
